Projects

1. Bookenplek (June 2024 – July 2024)- An online bookstore platform where users can explore and purchase books across various categories.

- Built using Next.js, and Tailwind CSS with a responsive UI for both desktop and mobile.
- Integrated dynamic routing, API fetching, and modular components for scalability.
- Live at: <https://bookenplek.vercel.app/>

2. The Roasted Garden (July 2024 – present)- A visually appealing website for a conceptual café offering hot & cold beverages and breakfast options.

- Designed an elegant UI using Next.js and Tailwind CSS.
 - Implemented smooth scrolling, gallery pages, and a menu section.
 - Live at: <https://the-roasted-garden.vercel.app/>
-
