Projects

1. **Bookenplek (June 2025 – July 2025)**- An online bookstore platform where users can explore and purchase books across various categories.

- Built using Next.js, and Tailwind CSS with a responsive UI for both desktop and mobile.
- Integrated dynamic routing, API fetching, and modular components for scalability.
- Live at: <https://bookenplek.vercel.app/>

2. **The Roasted Garden (July 2025 – August 2025)**- A visually appealing website for a conceptual café offering hot & cold beverages and breakfast options.

- Designed an elegant UI using Next.js and Tailwind CSS.
- Added animations using Framer Motion.
- Implemented smooth scrolling, gallery pages, and a menu section.
- Live at: <https://the-roasted-garden.vercel.app/>

3. **Portfolio Website (August 2025 –August 2025)**- My Portfolio Website is a personal platform I designed and developed to showcase my projects, skills, and experiences in a visually engaging way.

- Designed an elegant UI using Next.js, Tailwind CSS and ReactBits.
 - Added animations using Framer Motion.
 - Used Nodemailer to handle the contact form.
 - Implemented smooth scrolling.
